DRISHTI

A Revolutionary Concept

Where "We" comes before "Me"!

Makerspace : 5.0

Project Name : Digital Clock

Date : 02.04.2021

Points Discussed :

1. LED blinking Program Using AtMega32 (Code + Circuit)
2. Diodes-Basic Purpose and Applications
3. Discussion about few more functions and error rectification of Wrong code inputs.

Tasks :

1. LED blinking circuit (make circuit + understand code) Repeat Once More
2. Study Embedded C.
3. Explore Proteus.
